

Educator Pathways

Tuesday 14th July 2026

Workshop outline

- 13:00 - 13:30: Introduction to the [Educator Pathways project](#)
- 13:30 - 14:00: Small group discussions: is a pathway needed, how it maps to your organisation
- 14:00 - 14:15: Feedback
- 14:15 - 15:00: Review and development session 1
- 15:00 - 15:30: Break and networking
- 15:30 - 16:15: Review and development session 2
- 16:15 - 16:30 Feedback from sessions 1 and 2
- 16:30 - 16:45: Next steps and close of Day 1

Recognising and rewarding training activity in dRTP roles and departments

The initial phase will work with those who deliver, develop, and support training infrastructure across the UK DRTP landscape to expand existing examples and development opportunities so that they better meet sector needs. Building upon the Educator pathway developed within [UCL's Centre for Advanced Research Computing](#).

The second phase will work with DRTP leaders to raise awareness of the pathway and advocate for its adoption within their departments. The aim is to promote parity of esteem between technical and training activities in terms of recognition and reward, particularly within promotions processes.

The UCL ARC context

Alongside these 6 dimensions
are 5 professions:

- Research
- Re-
-

Contribute to ARC teaching and training,
through acting as a classroom demonstrator or
tutor, or delivering individual training or teaching
sessions, or authoring materials.

ARC Educator Development Pathway

- Designed to sit alongside job descriptions for each profession
- Highlight expectations of Educators at corresponding grade bands
 - UCL grades 6, 7, 8 and 9 (this may differ for your institution)
- Has parity of esteem with profession tasks, designed to be used in development conversations and to support promotion applications
- Based upon UCL's Academic (Teaching) Pathway, AdvanceHE PSF and CMALT
- [ARC Educator Pathways Overview](#)

Discussion: is this a potentially useful framework?

Feedback

Development Session 1: Example Activities

In small groups, read through the ARC pathways focusing on the example activities:

For both Teaching and Instructing and Tooling and Materials Creation:

- Are the examples activities what you would expect?
- How might these look different in your context?
- What would you add or remove at each level?
- Should there be a differentiation between “Teaching and Instructing” and “Tooling and Materials Creation”

Break and Networking

Development Session 2: Indicators of Impact and CPD Opportunities

In small groups, read through the ARC pathways focusing on the indicators of Impact and CPD Opportunities:

For both Teaching and Instructing and Tooling and Materials Creation:

- Do the indicators of impact align with the example activities?
- What would you add or remove at each level?
 - Are the indicators appropriate for that level?
- How might these look different in your context?
 - What might an alternative to AdvanceHE Fellowship be?
 - What general/open CPD opportunities are you aware of?
